*As tested In:* **IntelliStripe 65**

*Expiry Date:* **21-May-2018**

Dear Larry Meyers:

EMVCo, LLC ("EMVCo"), a Delaware limited liability company, has received your request for Level 1 terminal type approval for the interface module identified above. In connection with your request, we have reviewed your report, identified by file number 1MAGT\_1-7618-01-02-14\_CET & [magtk402\_v10a] which was generated by CETECOM ICT Services GmbH.

After assessing such file, EMVCo has found reasonable evidence that the submitted samples of the above referenced interface module sufficiently conform to EMV Integrated Circuit Card Specifications, Book 1, Version 4.0 of December 2000.

EMVCo hereby (a) grants your interface module EMVCo Type Approval for Terminal Level 1 Restricted Renewal, based on the requirements stated in the EMV 4.0 Specifications, and (b) agrees to include your interface module in EMVCo's approved interface module list. According to EMVCo Restricted Renewal policy the extension to the original Type Approval is granted for a period of four years. At the end of that additional validity period the interface module will expire and cannot be submitted for another renewal.

EMVCo's grant to your interface module is subject to and specifically incorporates (i) the General Terms and Conditions to the Letter of Approval enclosed as Exhibit A, and (ii) the Specific Terms and Conditions to the Letter of Approval attached hereto as Attachment 1. Because EMVCo's grant is subject to such limitations, including certain events of termination, you and any third parties should confirm that such approval is current and has not been terminated by referring to the list of approved interface modules published on the EMVCo website ([www.emvco.com](http://www.emvco.com)).

***This Letter of Approval is valid while the approval number is posted on the EMVCo website.***

Title: EMVCo Terminal Type Approval

# Attachment 1

## Specific Terms and Conditions to the Letter of Approval

### **Restriction:**

This IFM does not fully comply with all the current electrical test cases acceptance criteria. However, as some of these criteria are currently being redefined, EMVCo grants this LoA, but without any warranty about the compliance of the IFM with future acceptance criteria.
