ATMs Deemed Essential Service by U.S. Homeland Security Triton/ATMGurus Open for Business

March 24, 2020
Long Beach, MS

In a recent memorandum, the Department of Homeland Security (DHS) listed businesses they deemed as essential to keep the country running, and ATMs are included. In light of this notice and current events, Triton/ATMGurus would like to send a message of support to our customers.

We are here for you and though many of our employees are working remotely, they can be reached via phone or email at any time. We are also filling and shipping parts and repair orders as usual to help keep ATMs in the field up and running for cash access for consumers.

This situation is fluid, and the news changes daily, so watch our websites www.tritonatm.com and www.atmgurus.com for updates. Triton/ATMGurus will do everything in our power to support the needs of our customers. The Triton family wishes you all the best, stay safe and healthy.

Below are resources you might find helpful, including the DHS notice, and a statement from The National ATM Council (NAC) regarding maintaining and cleaning your ATMs.
